Where we are...

Within the province of Burgos, right to the Northeast, there is a huge territory resembling an enchanted labyrinth, mixture of rock, water and greenery. It is a spectacular succession of tight canyons and bleak plateaus creating a very particular geography full of contrasts. This privileged area, still preserving its own natural flavour, allows visitors to get familiar with traditional lifestyles and rural culture.

ARROYO (CANTABRIA): Our Centre of Activities is located in the village of Arroyo. This is the point of departure for descents and traverses along the canyons of the Upper Ebro.

PESQUERA DE EBRO (BURGOS): You may enjoy the rapids of the river along 20 km of canyons. You will see the tight and spectacular gorges that the Ebro river opens along its way towards the sea.

Our centre of activities counts with all the facilities to provide our guest the best service: bathrooms, showers, dressing rooms, parking, lounge... We count with the ultimate technology in sport material, a professional team of guides and an idyllic landscape to offer you a complete and secure service.
